Project Description

Since we live in a fast-paced world, online shopping has become a popular method of shopping ever since Internet's gradual advancement. Nowadays, people prefer to shop online for a variety of reasons, including time savings and the ability to shop whenever they want. There is also a wealth of reviews and other information available online to help you choose and compare between models and brands. NU Electronics is a database application for online electronic store that aims to simplify the shopping experience.

Project Summary

NU Electronics application is a database application tends to simplify the process of shopping. The technology used in the application is windows forms C# .Net framework.

The Application

The application starts with a login page with availability to log in as an admin or a customer each one of them have different interfaces with different options and different events. Before Building ER:

1-Normalization Table

The admin can:

- 1- Add, Update, Delete and Locate products.
- 2- Check user payments, balance and fees.
- 3- Generate Report.
- 4- Login as a Customer (Recursive Relationship).

The Customer Can:

- 1- Login & Logout Generate Profile.
- 2- Search For Product.
- 3- Add to Cart.

Database

The application's database includes **4 tables** (Category, customer, Product, Bill).

| | Name | Data Type | Allow Nulls | Default | |
|---|---------------------------|--------------|--------------------------|---------|--|
|  | ProductID | int | <input type="checkbox"/> | | |
| | ProductName | varchar(50) | <input type="checkbox"/> | | |
| | ProductQuantity | int | <input type="checkbox"/> | | |
| | ProductPrice | int | <input type="checkbox"/> | | |
| | ProductCategory | varchar(50) | <input type="checkbox"/> | | |
| | StatusProduct | varchar(50) | <input type="checkbox"/> | ('new') | |
| | Technical_Specs_Discrepti | varchar(500) | <input type="checkbox"/> | | |
| | | | <input type="checkbox"/> | | |

| | Name | Data Type | Allow Nulls | Default | |
|---|----------------------|--------------|--------------------------|---------|--|
|  | CategoryId | int | <input type="checkbox"/> | | |
| | Category_Name | varchar(50) | <input type="checkbox"/> | | |
| | Category_Description | varchar(100) | <input type="checkbox"/> | | |
| | | | <input type="checkbox"/> | | |

| | Name | Data Type | Allow Nulls | Default | |
|---|------------|-------------|--------------------------|---------|--|
|  | BillId | int | <input type="checkbox"/> | | |
| | SellerName | varchar(50) | <input type="checkbox"/> | | |
| | BillDate | varchar(50) | <input type="checkbox"/> | | |
| | TotAmt | int | <input type="checkbox"/> | | |
| | | | <input type="checkbox"/> | | |

| | Name | Data Type | Allow Nulls | Default | |
|---|-----------------|--------------|--------------------------|---------|--|
|  | CustomerId | int | <input type="checkbox"/> | | |
| | CustomerName | varchar(50) | <input type="checkbox"/> | | |
| | CustomerAge | int | <input type="checkbox"/> | | |
| | CustomerPassord | varchar(50) | <input type="checkbox"/> | | |
| | CustomerPhone | varchar(50) | <input type="checkbox"/> | | |
| | CustomerSpeces | varchar(500) | <input type="checkbox"/> | | |
| | | | <input type="checkbox"/> | | |

ERD diagram

Entities:

Weak entities: Subcategory.

Strong entities: Admin, Customer, Product, Category, Bill, Cash, Installment.

Relationships:

1:N Relationships

1:1 Relationships

N:1 Relationships

Recursive relationships.

Admin has a recursive relationship as he can act as a customer.

Types Of Keys:

- A composite key contains two or more attributes.
- Candidate keys are keys that uniquely identify each row in a relation.

Database Rights Granted in the application:

| Table | Administrative Assistants | Management | System Administrator |
|-------------------|---------------------------|------------------------------|--------------------------------|
| Admin | Read Insert Change | Read Insert Change Delete | Grant rights, Modify structure |
| Customer | Read Insert Change | Read Insert Change | Grant rights, Modify structure |
| Product | Read Insert Change | Read Insert Change Delete | Grant rights, Modify structure |
| Categories | Read Insert Change | Read Insert Change Delete | Grant rights, Modify structure |

The screenshot displays the Visual Studio IDE with a project named 'Nu Electronics.mdf'. The 'MANAGE CATEGORY' form is in design mode. The form layout includes a sidebar on the left with buttons for 'Customer', 'Product', 'Logout', and 'Home'. The main content area features three text boxes for 'CategoryId', 'CategoryName', and 'CategoryDescr', followed by 'ADD', 'EDIT', and 'DELETE' buttons. The form has a pink background. The Visual Studio interface shows the 'Server Explorer' on the left, the 'Solution Explorer' on the right, and the 'Properties' window at the bottom right. The status bar at the bottom indicates the system is ready and the time is 12:07 PM on 2/4/2022.
